

PRATHAM POUDEL

WEB DEVELOPER

About Me

Greetings! I am a dedicated student pursuing a degree in Computer Science and Engineering at Thapar University, India, representing the international community as a student from Nepal. Over the course of my academic journey, I have honed my skills in building comprehensive full-stack web applications.

Projects

Patient Database Management

WORKING LINK: prathampoudel.me

I've created a real-time Patient Database Management system using MongoDB, Express, and Node.js. This system streamlines data management for healthcare professionals, specifically doctors.

Instagram Clone:

Project Link : https://github.com/pratham-poudel/instagram_clone

I've developed a real-time Instagram clone web app, enabling users to post photos and receive likes from others.

Note Maker Using Framer Motion React JS

Working Link: <https://doc-mini-note-maker.vercel.app/>

This project aims to provide a minimalist and intuitive interface for managing personal notes effectively.
